From Liz Purchia. I had not heard back from you so wanted to make sure. We had a couple other changes to it. I will send it now.

I thought this has gone to Jic yesterday after we heard from press officer Melissa that they wanted it. Thanks.

Sandy,

I have reviewed the fact sheet you forwarded and compared it to the Action Memo, Polreps, and other documents on the [epaosc.org](http://epaossc.org) website for the Red and Bonita Mine Site (which includes part of the Gold King). The fact sheet is consistent with the information we have on the website, although the fact sheet goes into greater detail on the Gold King (e.g. first owned by Olaf...production values...etc.) than we have on the website. I really don't have any way to judge this additional information, but it appears to be reasonably well-sourced.
